

AI SEO Client Success – Home Renovations –

151.8% increase in organic conversions
year over year. **393.3%** increase in

Strategic Objective

Increase local visibility and leads for a home renovation company in Dallas, TX.

Initial Insight

This client needed to increase their presence in their service area across the Dallas-Ft. Worth area in order to increase the quantity of leads coming in.

Direction

By optimizing their local listing and focusing on their two main services (kitchen remodeling and bathroom remodeling) we were able to increase the visibility of the Google My Business listing by 96.2%, and clicks to the website by 85.2% year over year.

The local optimizations worked in tandem with a strategic content plan, solid foundational research and implementation, and our technical SEO efforts. We manually created and implemented geographic markup that gave Google even more information about our location and services which led to a huge increase of ROI and profit for our client.

Results

Our efforts paid off, we saw a **151.8%** increase in organic conversions year over year and a **393.3%** increase in organic traffic year over year.
