

Landscape | AI SEO Case Study

Summary

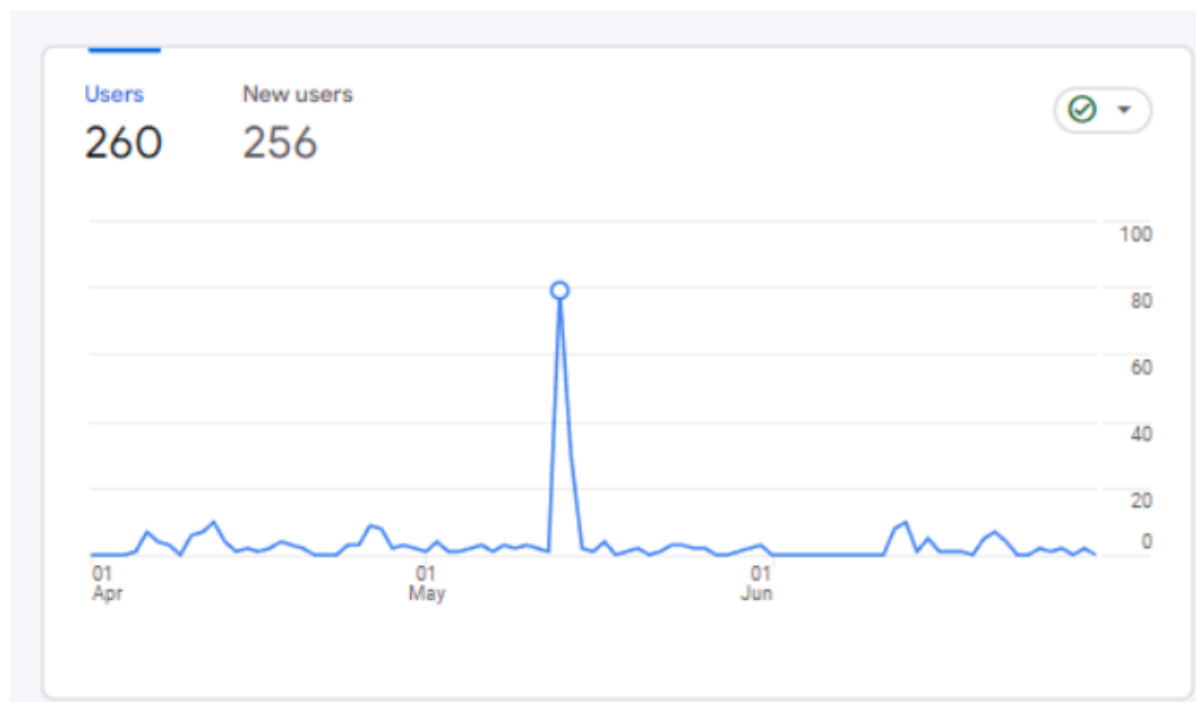

Google Business Profile is an essential tool for optimizing local SEO and maximizing your online presence. Without leveraging its power, you may face significant challenges in achieving favorable search engine results. By claiming and optimizing your Google Business Profile listing, you can ensure that your business information is accurate, up-to-date, and readily available to potential customers. This not only boosts your visibility in local search results but also enhances your credibility and trustworthiness.

With your Google Business Profile waiting to be verified, results are limited. One major roadblock is the approval of content and other deliverables, and this also hinders us from achieving greater results as improvement on the website and content is limited. However, we are happy to inform you that despite these major roadblocks, we were able to increase some KPIs. We were also able to improve keyword rankings and have the following notable results:

1. landscape maintenance companies near me - dominating organic desktop at rank 3 and organic mobile at rank 2
2. landscape installation ashland ky - dominating organic desktop at rank 1 and organic mobile at rank 1
3. ashland landscaping - dominating organic desktop at rank 2 and organic mobile at rank 2
4. landscape installation ashland ky - dominating organic desktop at rank 2 and organic mobile at rank 2
5. landscaping service russel - dominating organic desktop at rank 1 and organic mobile at rank 1

Google Analytics - GA4 KPIs

From April to June 2023, we had a total of 260 users, and 256 of those were new users. Please take into consideration that we are encountering roadblocks in access and approval of deliverables along the way during this period.

Traffic Acquisition

April vs. May

Here is the traffic acquisition comparison for May 2023 vs. April 2023. As seen from the chart, the website's total users and sessions increased. The majority of these users and session counts came from direct visits. Your total average engagement time per session, engaged sessions per user, events per session, and engagement rate decreased. However, you can see a movement from organic search on these KPIs. For our organic search, we had a 40.63% change in engagement time per session, a 18.56% change in events per session, and a 25% change in engagement rate.

Major Roadblocks

Our major roadblock had been the approval of deliverables.

1. Approval of blogs and other deliverables
2. Access issues and verification of Google Business Profile.
